

Meeting Student Learning Outcomes (SLOs) and Remediation

To meet the identified student learning outcomes for each course, all formative and summative evaluations and student learning experiences must be completed and submitted prior to the end of the course. Students must meet a (B) grade pass standard for each SLP course SLO. Students who do not meet the (B) pass standard must complete remediation and demonstrate achievement of the relevant course SLO(s) by the time that the final course grade is issued.

A written remediation plan, with a timeline for completion, will be developed by the course instructor no later than 7 days after the assessment grade is posted. The specific SLO(s), determined by the instructor to be deficient will be identified in the plan with a coinciding remediation learning experience. The student must meet the remediation plan criterion to demonstrate achievement of the relevant SLO(s), which is a (B) grade level standard, at a minimum. Once the student has met the pass standard for the relevant knowledge or skill, the specific SLO(s) will be considered remediated. At the time final course grades are issued, any outstanding remediation work will be considered as “incomplete”, and the student will be issued the temporary grade of Incomplete (I). The student will have until the midpoint of the next online cycle to complete any outstanding remediation work and resolve the incomplete grade. ny ou9.39 mdolan rre. no of (B), the student will be required to retake the course. Students are only allowed to retake one cours
