Institutional Biosafety Committee

Application to use Biohazardous Material in Teaching Laboratory

This application is to provide the Institutional Biosafety Committee (IBC) with the information it needs to review and evaluate laboratory exercises, to ensure that the procedures are consistent with the University Biosafety Policy and to ensure that faculty, staff and students are properly trained to work with and/or are protected from exposure to biohazardous materials.

**Complete the items in the form below and submit this document to the University of Scranton Institutional Biosafety Committee, c/o Office of Research and Sponsored Programs, IMBM 203.**
